Delaware County Solid Waste Authority  
583 Longview Road  
Boyertown, PA 19512-7955**Re: Notice of Intent to Deny General Permit Application Number WMGR136**

Dear Mr. Sebzda:

On November 10, 2011, the Department of Environmental Protection received an application from Delaware County Solid Waste Authority for a residual waste general permit for beneficial use of landfill leachate as a substitute for other water sources used in the hydraulic fracturing process associated with the deep shale natural gas development. A technical review letter was sent to you on May 7, 2012 outlining the areas of the application that needed more information. This information was due to the Department on May 31, 2012. At this time, we have not received any correspondence from Delaware County Solid Waste Authority. Failure to supply adequate response to the technical review letter by June 29, 2012 will result in denial of your application.

Should you have any questions on this matter, you may reach us at the number below.

Sincerely,

A handwritten signature in black ink that reads "Scott E. Walters".

Scott E. Walters, Chief  
Permits Section  
Division of Municipal and Residual Waste
