

December 7, 2016

The Honorable Tom Wolf  
Governor  
Commonwealth of Pennsylvania  
225 Main Capitol Building  
Harrisburg, Pennsylvania 17120

The Honorable Patrick McDonnell  
Pennsylvania Department of Environmental Protection  
Rachel Carson Office Building  
400 Market Street, 16th Floor  
Harrisburg, PA 17105

Dear Governor Wolf and Acting Secretary McDonnell:

The undersigned affected landowners, concerned citizens, and organizations request that you direct the Southeast, South-Central, and Southwest regional DEP offices to establish a formal public participation process to allow adequate time to review and comment on Sunoco, L.P.'s resubmitted Chapter 105 and 102 applications for the proposed Mariner East II pipeline.

DEP has required that the company address a substantial number of deficiencies in its resubmitted applications. We anticipate that the review process will be a time consuming one for commenters. The December 7<sup>th</sup> submission deadline means that the comment period would fall during the holiday season, making it all the more imperative that a comment period of no fewer than 60 days be established to allow time for technical and public review of the applications. In addition, we are requesting a minimum of 6 hearings in locations along the pipeline route to commence in the new year. Because the hearings would occur in the winter when travel can be difficult, we also ask that DEP develop and implement an inclement weather plan that includes alternate dates for hearings that must be rescheduled due to weather conditions.

We thank you for your consideration and look forward to your response.

Respectfully,
